BUSINESS JUST FAIR.

The Volume of Trade Restricted by Unfavorable Weather.

EFFECT OF THE TWO GREAT FIRES.

A Combined Loss of \$15,000,000 May Shake Insurance Firms.

SUDDEN CORNER IN THE CORN MARKET.

A Great Boom in Iron on the Other Side of the Atlantic OCERD.

The reports to Bradstreet's and R.G. Dun & Co. indicate a fair volume of general trade. The recent fires may affect insurance companies, but the result will hardly be serious. Stock speculation is disturbed by the approaching session of Congress.

ISPECIAL TELEGRAN TO THE DISPATCE.) NEW YORK, November 29 .- Special telegrams to Bradstreet's indicate the continuance of a fairly active movement of general

merchandise, though the intervention of a holiday and unfavorable weather tended to restrict the volume of trade. Hogs are lower on heavy receipts at the West, but pork and lard, under a fair demand. have been firm at moderate advances. Eastern Texas mills are shipping lumber to Central and South Stock speculation is disturbed and prices

depressed by the prominence of financial and currency questions among the probabil-ities of the coming Congress. A judicial decision against the validity of the Chicago Gas Trust causes depression in the trusts, and weakens the general market. Money at New York is firm and inactive at 6@7 per cent on call. Foreign exchange is quiet. Demand sterling \$4 84%@4 85. Values of October merchandise exports were the largest for any month on record with one exception, exceeding by 51 per cent the total for September, 1889, and by 31 per cent that for October, 1888.

THE BALANCE IN OUR FAVOR.

Imports also show a large gain, but the exports total exceeds that for imports by 58
per cent. For ten months the total value
of exports is less than totals for like periods
in 1888 and 1887, but imports for ten months of 1889 are largest on record. Nearly all lines of trade share in the increased export

Iron and steel markets maintain their strength without noteworthy changes. The output is very heavy; there are practically no stocks in hands of producers, and consumers with moderate supplies for near wants are watching the course of the market. Rolling and structural iron mills, bridge iron and pipe establishments are rushed with work. Copper is quite strong at late advances, some cash sales being recorded at

131/@141/cents.
The exports of wheat (including flour) from both coasts show a turther decrease this week, being 1,708,732 bushels against 1,869,462 bushels last week and 1,704,811 bushels in the last week of November, 1888. The total shipped abroad from July 1 to date is 42,524,513 bushels against 45,717,811 bushels in a like portion of 1888, and 66, 000,000 bushels in 1887. Depression in breadstuffs continues. Flour is off 5 and 15 cents per barrel on heavy receipts and offer-ings. Wheat, at the close of inland water navigation, has also been hurried forward, but on light export demand is %@lc lower. Offerings of Indian corn have been so free that the improved demand did not prevent a decline of %@%c.

THE CORNER IN CORN.

A speculative twist at Chicago ran the price from 333% to 63c. Demand for oats is light, and prices are 1/20 lower. The present outlook for the current cereal year is not favorable for exports of wheat (including flour) to equal those of 1888-89, when they were 90,000,000 bushels. The cereal year of 118,000,000 bushels, even if And crayons for Xmas presents are made at 40,000,000 bushels are to be carried over next July.

Mail orders constitute a leading share of demand with New York and Boston jobbers. Commission agents are doing a steady busi-ness in cottons, export demand being enlarged. Woolens are only in fair move-ment. Print cloths are 1-16c higher, with a quiet business. Raw wool is more active at unchanged prices. Cotton is dull and steady at unchanged values.

A falling off in arrivals of raw sugar at primary markets, stimulating advices from Europe, urgent requirements on the part of refiners, and only moderate offerings by holders, hardened prices 1/6/1/2. The Philadelphia Spreckels remory was to start up to-day with abundant supplies of raw, after, as alleged, selling at a good profit some of its supplies of raw to "competing trust establishments," Some extensive contracts of refined ran shead of production, and prices advanced 1/4c. Speculative prices of coffee remain about steady.

Business failures reported to Bradstreet's number 265 in the United States this week, against 250 last week and 268 this week last year. Canada had 36 this week, against 34 last week. The total of failures in the United States January 1 to date is 10,372, against 9,166 in 1888.

DUN'S WEEKLY REVIEW.

R. G. Dun & Co.'s weekly review says: Two heavy fires, with aggregate losses esti-mated at \$15,000,000 or more, may have an influence upon several branches of trade which cannot yet be estimated. Heavy concurrent losses may shake some insurance companies and affect the finances of firms burned out. But the general prosperity and the large accumulation of available capital will probably render the influence of these disasters comparatively narrow and brief. In other respects the situation is quite as encouraging as it has been for some weeks, past: the volume of business is unsurpassed, and the pressure in money markets, though not ended, has seemed to be abating else-

The reports from other cities are, without exception, favorable on the whole. Trade at Boston, prior to Thursday, had been im-Cotton was strong, with mills well employed, and prices strengthening; in metal manufactures firm, with wide distribution of products.

IRON PRODUCTS. At Philadelphia iron products are in thracite dull. Money was tight, but with prospect of ease after 10 days. Western cities, without exception, find trade good, though grain is moving very slowly at Milwaukee, and mild weather affects sales of winter clothing. Money is fairly active, but nowhere stringent at Western points re-porting, and the accounts regarding collec-tions are better than usual. Stock receipts at Kansas City are lighter, but shipments of live hogs to Mexico, lately stopped by high tariff, are resumed.

Speculative markets have not been very active. With sales of 32,000,000 bushels here, wheat has declined nearly 1 cent and corn about a half cent, with sales of 5,000,-000 bushels. Cotton is unchanged, though receipts this week exceed last year's by 16,-

000 and exports by 49,000 bales, and sales have been 378,000.

Coffee has not moved, but oil has dropped nearly 4 cents. Pork products are a little lower and sugar is stronger in tone. Rubber had advanced a little, new Para selling at 721/2 cents.

A BOOM ABROAD.

A great beem in iron abroad, with a spec-ulative excitement rarely witnessed, and rapid fluctuations in prices causes some apprehension, because experience teaches that such rapid and excited movements are usually followed by ugly reactions. The un-paralleled production in this country still

posits when made were intended to be only temporary, and will give the Treasury ample time to put an equal amount into circulation in other ways. The Treasury has paid out during the last week \$1,200,000 more than it has taken in.

The business failures number 249, as compared with a total of 277 last week, and 265 the week previous. For the corresponding week of last year the figures were 232.

BAD COUNTRY ROADS.

Judge Petterman Makes a Few Suggestions About Repairing Them.

horse out.

"Every township should provide itself with stone breakers, and spend all the money it can possibly afford each year until it has roads that can be used with some degree of comfort during the fall, winter and spring. Cost would soon return in improved value of land and many millions of dollars of valuable time and human and horse flesh he saved each year. This saving alone would saved each year. This saving alone would soon return the money invested.

SOME STRIKE IT RICH.

The Drill Pushed in Every Direction and a

Big Pool Mny be Opened. Though one might suppose to hear the talk in the Oil Exchange that drilling for petroleum was a lost art, yet development is steadily going on, and it need astonish no one if even another Bradford field is found. Jennings & Patterson's Missionary No. 2, Cope farm, Duff City, is making 16 barrels an hour. They will shoot the other Mis-sionary, possibly have shot it, already. The firm expects to bring in a well at Jefferson

Center, Butler county, in a few days.

The well on the Chephas Wise farm, Mt. Morris field, is showing largely in the pay streak. At Horseshoe Bend, on the Perrysville road, work is progressing as fast as the condition of the roads, will allow. Derricks are sprouting in every direction, and opera-tions will soon reach to the Allegheny City limits. The Reel well is a good gasser.

Heavy 81 Underwear for 50c To-Day. 100 dozen men's heavy natural and camel's hair wool underwear, the same grades as are retailed everywhere for \$1, will be sold at Kaufmanns' to-day for only 50c for shirt or drawers, or \$1 for a suit.

FELT LIKE KILLING HIMSELF

A Well-Known Pittsburger Contemplates Suicide.

A HISTORY OF THE CASE.

Mr. Charles Preston had for some years been a victim of kidney disease. The pain across his back and kidneys was so severe that several times he was compelled to give up his business. He had more or less pain all over his body, especially shooting down his limbs. He had a constant tired feeling, which was worse in the morning. There was a dull, oppressive feeling in his head and much pain over his eyes. His appetite at times was very poor. He felt very nervons and could not sleep. He had a dropping of mucus into his throat, which, in hawking and spitting it cut, caused a burning feeling in his throat. His disease so affected his mind that he became very melancholy, and, as he said, he frequently His disease so affected his mind that he became very melanchely, and, as he said, he frequently left like killing himself. He began treatment with the physicians of the Polypathic Institute, \$20 Penn avenue, on September 28, and now is well, his mind is cheerful, and nothing could induce him to commit suicide. He can be found at Noz. 5 and 7 Ross street.

He says: "I take great pleasure in announcing to the people of Pittaburg that I have been cared of the above disease, and most cheerfully advise those who are suffering from chronic diseases to consult these doctors.

CHARLES PRESTON."

The physicians in charge treat successfully all forms of kidney and urinary diseases, chronic diseases and surgery.

Office hours, 10 A. M. to 4 P. M., and 6 to 8 P. M. Sundays, I to 4 P. M. Consultation free and strictly confidential. Treatment also by correspondence.

U. E. LIPPENCOTT.

539 Smithfield street, Pittaburg.

paralleled production in this country still continues, and other furnaces of large production are about to go into operation, and yet prices are firm at Philadelphia.

The reported decision that Treasury deposits with banks shall be gradually with-drawn, 10 per cent of them by the end of January, has been expected, because destantly on hand.

Cured by Cuticura

About Repairing Them.

Judge Fetterman said yesterday: "I think it would be a good plan for the press to keep up an editorial fire on the road question from this time until some action is taken to render them passable. I do not know of any other question of equal importance. Business is almost at a standstill in some sections, and a trip of ten miles into the country now will wear both man and horse out.

"Every township should provide itself with

Knee to Foot Running Sores I have been afflicted with a sore limb, which the doctors called eczema. My limb from the knee to the foot was one mass of rounting sores. The doctors bandaged it every day for a week, and every time the bandage was removed a large scab would come off, and the blood pout down. I got one bottle of CUTLOURA HESOLVENT, one box CUTLOURA SOAP, and they cured me. I told a lady who was similarly afflicted to use it, and it cured her also. I gratefully soknowledge that it was CUTLOURA that cured me. Miss. RATE BEARD, Orange Valley, N. J.

Cuticura Resolvent The New Blood Purifier and purest and best of Humor Remedies, internally, and Curicura, the great Skin Cure, and Curicura Soar, an exquisite Skin Heautifier, externally, speedity cure every disease and humor of the skin, scalp, and blood, with loss of hair, whether simple, scrofnious, hereditary, or contagious, when physicians and all other remedies fall. This is strong language, but true. Thousands of helpless anticrers have found it so. Curicura is the only positive Humor Cure.

NEW PUBLICATIONS.

The December number of The Century Magazine is remarkably varied in its contents and is especially interesting. Among the more important articles are:

Selections From Wellington's Letters; now published for the first time. This correspondence extends over a period of several years, to within a fortnight of his death, and it is noticeable as showing the gentler characteristics of the Iron Duke. (Fully illustrated by many pictures and portraits.)

The Autobiography of Joseph Jefferson, which began in the November Century, increases in interest. The present installment is full of delightfu) reminiscences of the Wallacks, John E. Owens, Burton, Burke and others, besides containing some curious adventures of the author. Illustrated with portraits. New York Commercial Advertiser says: "It is as rattling good reading as his 'Bob Acres' is rattling good acting."

The New Creton Aqueduct. The first complete and tully illustrated paper on this great triumph of modern engineering appears in the December Century. A feature of the illustrations is the reproduction of photographs showing the caves which were filled by the contractors with air at the rate of \$5.00 per cubic yard, to the tune of a million dol-

The Paris Panorama of the Nineteenth Contury was one of the features of the Paris Exposition. It is reproduced in miniature. The text is by Alfred Stevens and Henri Gervex, who conceived and executed the pro-

Revelation and the Bible is the first paper of a timely and important series on the general subject of "The Nature and Method of Revelation," and is written by Professor George P. Fisher, of Yale.

The Fall of the Rebel Capital,-and Lincoln in Richmond, are striking chapters in the Lincoln history.

Two Serial Stories. "Friend Olivia," by Amelia E. Barr, and "The Merry Chanter," by Frank R. Stockton, are in the very best vein of two of the most popular writers of the

Two Complete Short Stories. In "Captain

Joe," Mr. F. Hopkinson Smith tells in the form of a story one of the most heroic deeds of modern times, and "The Taming of Tarias" introduces a new writer to The Century. The scene is laid in the Platte Purchase. There are Christmas Poems in the December

Century, as well as many others, including one by E. C. Stedman, on Fortuny's famous "Spanish Lady," accompanied by a full-page engraving of the picture. Among the contributions are articles on "Nature and Peo-ple in Japan," by William Elliot Griffla, with pictures by Wores; "Pundita Ramabai," by Elizabeth Porter Gould, etc., etc. The Century for January will open with a re

markable paper, by Amelia E. Edwards, describing recent astonishing discoveries in Bubastis, Egypt. Fully illustrated. The authors of Lincoln, in the same number, describe in a most graphic manner his assassination and death,

Future Numbers of The Century will contain "New Studies in Astronomy. Lick Observatory," La Farge's "Letters from Japan," beautifully illustrated by the author; "Present-day Papers," by Bishop Potter, Hon, Seth Low, Prof. Ely, etc.; "The Women of the French Salous," profusely illustrated;
"Prehistoric America," "The Serpent
Mound," "Aucient Fire Worship," etc.; Pictures from the Old Masters, by T. Cole, the most notable series of its kind ever executed,
